Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The Applicant's representative requested the interview to discuss proposed amendment to overcome the 35 USC 101 rejection and to discuss the novelty of the invention. The Applicant's representative argued that Carson et al. does not teach a database of taxonomy related information. The Examiner maintained the rejection stating that claim 1 is directed to a database of just data and not taxonomy itself. The representative stated a possible proposed amendment will be filed shortly.
